

Tool Tray Cart Alet Bohça Arabası

Designed to be used in anatomy laboratories. The Tool Tray Cart is manufactured from AISI 304 18/8 quality chrome-nickel. In order to prevent supplies from falling off, a barrier is present on three sides of the cart, where the side without faces the user. Through the telescopic ray system used in the drawer system, the entire shelf can be removed to be cleaned. The Tool Tray Cart has four, 360 degree rotatable wheels, of which two have brakes. The wheels of the Tool Tray Cart have bumpers to protect them from impact. The Bayinoks Tool Tray Cart is custom made to the measurements requested.

Anatomi laboratuvarlarında kullanılmak üzere tasarlanmıştır. Alet bohça arabası AISI 304 kalite 18/8 krom nikel malzemeden üretilmektedir. Bayinoks Alet Bohça Arabası özel olarak istenilen ölçü ve özelliklerde üretilmektedir.
